

FRIDAY, JUNE 15, 1744

day arriv'd the Two Mails due from Holland.

Petersburgh, May 1.

H. E. Feasts that have been held at Moscow, on Account of the Anniversary of her Imperial Majesty's Coronation, were magnificent beyond Expression. They continued for three Days; and on the last there was a Ball and Masquerade, which lasted till Midnight, when the whole Company went to Supper at several Tables; and after Supper, danced again till it was Morning. The next Day the Imperial Majesty went to see the old Castle of Moscow, seated at the Confluence of the Jurtz with the Moskwa. The Grand Duke went the day to the Opera House, and saw all the Machines, at which he expressed great Satisfaction.

burgh, May 28. On the 18th the British Ambassador Extraordinary, Lord Tyravley, had his first Audience of her Imperial Majesty; to whom he made excellent Speech, setting forth the Affection of Great Britain for that Princess's Person and Person, and his unalterable Attention to whatever promotes a good Intelligence between the two Courts.

The Count de Bessuchet made him the following Answer: Her Imperial Majesty is so convinced of the Importance of a good Understanding between the Court of Russia and Great Britain, that she will contribute, as far as in her Power lies, to their Advantage. For this Reason, she cannot, but with the greatest Satisfaction, receive the Assurance of Great Britain's Friendship, given her by so distinguished an Ambassador. The Merit, and remarkable Ability, of your Excellency, as well as the Confidence, which is known his Britannick Majesty, your Master, has in your Person, are sufficient Proofs to her Majesty, of the Sincerity of your Declarations. Afterwards an Audience of his Imperial Highness, whom he made a Compliment, on the Part of Great Britain, and received an Answer full of Affection. We are since informed, that the King of Sweden, will shortly embark for the North Sea, in order to be employed in the Duchies of Holstein and Verden; or, in Case it should be necessary, in the Defence of the Electorate of Hanover.

burgh, May 26. On Friday last the King and the Queen removed from the Castle of Carlsberg to Retholmsund, from whence his Majesty, and her Majesty, will to-morrow return. The Russian Army, at present in this Kingdom, have actually taken up their Quarters, in order to draw down towards our Frontiers, when they will embark, in order to return to their own Country. The King has since sent Count Johann von Weyberg, Consul for the Nation at Tripoli; as well in Consideration of the Peace, as on the Recommendation of the Bey, who has known him for two Years.

burgh, June 3. Yesterday in the Afternoon there was a great Battle between the two Armies; and to the Evening, it was said, that an Engagement had taken place, and that the Army of Naples had been defeated. As there were many People here, who pretend to have certain Intelligence that there had been a great Battle, we began to treat this Rumour as groundless. This Morning we have undoubted Advices from Valmontone, and other Places, that this is really the Case; and that the King of the Two Sicilies, with the utmost Precipitation, into his Kingdoms. We are under the greatest Impatience to know the Particulars of this Affair, because, according to Accounts, the King of the Two Sicilies, without fighting, on the News of some Insurrection, broke out in his own Dominions; and fled into the City of Naples itself.

burgh, June 3. The Baron de Taxis, General of the Austrian Army, passed thro' this City this Morning, with the agreeable News, that the King of the Two Sicilies, on the Approach of the Austrian Army, had abandon'd all the Posts of the Kingdom of Naples. This News, which we received this Morning, with the additional Intelligence, that the Hungarians had attack'd the Rear of the Neapolitan Army, had cut off some, and made many Prisoners. Her Hungarian Majesty will march the King of Sardinia with 10,000 Men, without the Army of Prince Lobkowitz; and it is already assembled at Roveredo.

Genua, June 5. The Powers at War exert themselves to the utmost in the Attack, and in the Defence of those important Posts, the Castle of Oniglia, and the Pass of Tende. On the one Hand, the Piedmontese have intrenched themselves up to the Teeth; and on the other, the French and Spaniards are doing their utmost to make themselves Masters of Posts behind them, in hopes, that if they were once surrounded, the Piedmontese would lose all Hopes, and enter into a Negotiation for giving up one, or both Places. In the mean time, the Bombardment of Savignio has produced no great Consequence; and it is believed the Place will hold it for some time.

Vienna, June 6. We have discovered, by Means of some intercepted Letters, a new Conspiracy that was carrying on here, blacker than that in which Colneri was involv'd. As yet the Court has not acquainted us with any of the Particulars, but it has been remarked, that since this Affair has been talk'd of, several Persons have absconded. There is still a Report, that the Field Marshal, Count Oliver Wallis, will be sent to command in the Netherlands; which perhaps may take Place, in case Prince Charles of Lorraine does not speedily leave his Army, under the Command of Marshal Count Traun, in order to march with 15 or 20,000 Men into the Netherlands, at the Request of the Maritime Powers.

Amberg, in the Upper Palatinate, June 4. Yesterday the Declaration of War, issued by the Queen of Hungary against France, was published at the Head of the Austrian Army encamped in the Neighbourhood of this City. The Regiments which compose that Army are Warbrand, Waldeck, Platz, Young Konigsberg, Merer, Kheul, Vetter, Hally, Vissari, and Beteem, Infantry, Balleys, Freyling, Young Palfi, Portugal, Czernin, Birkensfeld, Charles St. Ignon, and Luchesi, Cavalry. There are besides several Corps of Irregular Troops; and it is expected that these last will very speedily receive considerable Reinforcements. The Generals who command these Forces, under Count Bathian, are Wincelaus, Wallis, Kollowrath, Luzzani, Piccolomini, Charles St. Ignon, Charles Palfi, Hosi, and the Majors-General Holtsch, Bogendorff, Gatten, Andellu, Luchesi, De Pen, Kuffstein, Kynck, and Berchini.

Brussels, June 16. In Consequence of Orders sent hither from the Court of Vienna, several Battalions have had Directions to quit the Garisons where they are at present, in order to march to the Camp of Enghien; where her Majesty is resolv'd to augment her Forces, employed in the common Cause, with 7000 Men. It is believed his Britannick Majesty, and the States General, will likewise augment the Forces they have in these Provinces, in order to enable the Confederate Army to march immediately against the common Enemy.

Hague, June 10. According to the last Advices from Flanders, the Trenches were open'd before Ypres on the 14th; and some Letters say, that the very same Day the French invested Furnes; but this is very much doubted. The Confederate Army is not yet in a Condition to attack that of France; but since the Return of Count Wallmer, a Report has prevail'd, that we shall very speedily march a Body of 30,000 Men into Flanders, and declare War, at the same Time, against the most Christian King. We have Letters from Amsterdam, which say, that four East-India Ships were just arriv'd, that left the Cape of Good Hope on the 24th of March, with four other Ships; from which they were separated on the 14th of May.

HOME PORTS.

Dover, June 12. Wind N. E. Arriv'd the Vallecourt, from Falmouth; with several Coasters, under Convoy of a Man of War.

Dover, June 13. Wind S. E. Arriv'd his Majesty's Ship the Aldborough, from the Westward; the Cleve, Rice, the Fly, Rickards, and the Charming Molly, Midsum, all from Falmouth; the John and Elizabeth, Lovell, the Friendship, Goodson, and the Eagle, Wallis, all from Milford; the Golden Fleece, Compton, the London Merchant, Hunt, and the Owners Good Will, Pike, all from Exon; the Dolphin, Gould, from Topham. Came down his Majesty's Ship the Mermaid, Captain Parley; the Gibson, and the Mithila, Blackwell, both for Lisbon, and remain with the outward-bound as per last. This Morning the Salth Privateer sail'd on a Cruise.

Graveland, June 13. Pass'd by the John, Williams, from Carolina.

LONDON.

The Count de Saxe, at the Head of a Detachment of 9000 Men, made lately a desperate Attempt upon

Fort Knocque; from which he was oblig'd to retire, after an obstinate and bloody Dispute.

Prince Charles of Lorraine having made the necessary Dispositions for attacking the Imperialists in their Camp, under the Cannon of Philipsberg, the French Army join'd the latter.

They write from Cologne, of the 16th of June, N. S. that they had Intelligence, there, of the French having made themselves Masters of the City of Mentz by Surprise, which had thrown them into a great Consternation.

Yesterday divers Persons of Distinction were to see the new Engine which was invented by Mr. Etheridge, the present Carpenter to the Bridge at Westminster, for cutting off the Piles close to the Bottom of the River, that supported the Centers for turning the Arches of the said Bridge; which performs extremely well, and gave great Satisfaction to all the Spectators; and they were pleas'd to make him a handsome Present for his ingenious Invention.

The Lords Commissioners of the Admiralty have appointed the Hon. ——— Hervey, Esq. youngest Son to the Earl of Bristol, to be Captain of a Fifty Gun Ship.

The Right Hon. the Lord Delawar was lately married to the Lady Dowager Abergavenny.

Dr. ROBERT EATON

BALSAMICK STYPTIC

Truly prepared and sold at the Doctor's House, now Mrs. DUTTON's, in Fleetstreet.

THIS Medicine restrains, in a

surprising Manner, all internal as well as external Hemorrhages, i. e. it instantly and quickly stops the Blood; also the immoderate Flux of the Menstrual Blood; bloody Urine or Stools, bleeding of the Nose, &c. according to the plain Directions given, and in the large Account of this Medicine, written by Doctor himself, and dedicated to the College of Physicians, a little before his Death.

It keeps good for many Years, at Sea or on Land.

Climates; therefore must be universally useful. The Doctor not only obtaining his Majesty's License for the sole Vending of this most Excellent Medicine, also a Clause in a late Act of Parliament, empowering Medicine from the Inspection of the Council of Physicians, to which all other Medicines are subject.

N.B. The late Learned Dr. CHEYNE, in a Piece, entitled The Natural Method of curing the Body, &c. prefers Eaton's Styptic as being more effectual than any other Styptic; and speaks of it as follows:— "It knows the agglutinating Quality of blood, and prehend it is to this, that Eaton's Styptic is mild, folding Efficacy. It is more easily taken, and is soft, than the mildest Steel Preparation, and to patch a Hole, or glew up a Rupture, as it is to the acid and inflamed blood of Pleurisy, &c. says, he is confirmed in this by a Physician of great and Candor, who has great Opportunities of seeing Cases, by his Practice in Midwifery." See &c.

Concerning Gleet and Seminal Weakness of all Kinds.

ALL judicious Physicians and

allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weakness, occasion'd by too severe purging for Venereal Disease, Strains, Pollution, &c. or any other Cause, so that they are dangerous in their Consequences, and difficult to cure, as is certain, since they destroy the Generative Faculties, infect the whole System, often bring on Heedick Heaps, a Total Obstruction of the Back, or an Atrophy or Nervous Debility, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be afflicted with Old or Stubborn Gleet, Seminal Weakness, or any other Venereal Disease, should be careful to procure a speedy Cure, which they most assuredly may, by only a small Quantity of a transcendent Balsamick Styptic, now published for the first time, after having for many Years been experienced as a fail perfectly curing the most Stubborn Gleet, in a few Days, without Difficulty or Trouble, and other Weaknesses of the Back, Reins, Seminal and Urinary Passages, which almost instantly return to rights and restoring all those Parts and restoring natural Tone and pristine Vigour, in a very easy Manner, and by taking a few Doses of it only.

This transcendent Balsamick Styptic is neither disagreeable to take, nor occasion'd by any disorder, but is a wonderful Restorative in all Venereal Diseases, of any Kind, and particularly in Gleet, Back, Reins, Seminal and Urinary Weakness, &c. inasmuch that in any Debility of the Back, &c. does more than ten of any other Remedy yet found, and all Persons fatigued with Gleet or Seminal Weakness, or Weaknesses of the Urinary Vessels, who take in three Days time find it is very effectual, and most agreeably surprised at it.

When a Medicine will infallibly succeed in a speedy and perfect Cure of such difficult Maladies, and Seminal Weaknesses, as this Great Balsamick Styptic, directly will, even after all other Means and Remedies have been tried in vain, too much cannot be said in its Praise. All who ever took it for any of the above Maladies have readily declared.

The Price is but 6 s. 8 d. Pot, altho' for its additional one Pot alone being sufficient in most Cases to effect a Cure, worth ten times as much, and by the special Appointment, is to be had only at the Toy-shop, at the Rose and Crown against the Church-yard in the Strand, ready staid up, with Instructions, which whosoever carefully reads, will fully know, when the Gleet or Weakness is cured, succeeds a Venereal Injury, whether all the Malady the Foul Disease is entirely eradicated or not.

Note. Ask only for a 6 s. Pot of Balsamick Styptic.

SATURDAY, JUNE 16, 1744.

Yesterday arriv'd a Mail from Flanders.

Berlin, June 13.

HE Day before Yesterday his Majesty arriv'd at Potsdam, from Pyrmont, about Four in the Afternoon. The Waters have agreed extremely well with him; and his Majesty was never known to enjoy a better State of Health than he does at present. The Day for the Marriage of her Royal High-

Princess Ulrica, to his Royal Swedish Highness, is fix'd; but we have Reason to believe that this will be celebrated about the Middle of July. Diversion which that Solemnity will occasion, is already select. It is observ'd, that his Majesty is extremely fond of conferring with any of the Ministers, but spends his Mornings, usually, with the Duke of Holstein Beck, and Mr. Bowdren, who is at War. Yesterday, at Dinner, his Majesty the former; I know not how it is, but, at late, nothing to please some of my Neighbours. It remains Quiet in their Quarters, they fly, I Attention to my Treaties; and no sooner are Motion; then this is made a Handle for suspic- of bad Designs; as if all the Princes of Europe Liberty to take up Arms, to procure or defend Rights, except myself. The Baron de Coccei, invited, by the King, to go and receive Homage from the Inhabitants of East-Friesland: Some People, but this Affair will be attended with great Dis- but the Court does not appear to have any Opinions; but, on the contrary, supposes, that it does no Injury to his Neighbours, none of his will incline to provoke him.

June 6. Count Dohna, some Days ago, had an Audience of the Queen, but we know nothing of the Result. Yesterday an Express arriv'd from Moravia, that the Prussian Troops in Silesia Motion, and seem'd on the Point of entering it; but where, or against whom, remains. The Count, however, does not seem to take Umbrage at it; from whence we infer, that Dohna acquainted her Majesty with the true Rea- son the Step being taken. The Presents design'd for the King, are to set out next Week.

of a Private Letter from Lyons, dated June 6, 1744.

The Billif de Givri, and the Spanish Officers who detach'd with him, to view the Piedmontese Armies at Onigia, and the Pass of Tende, made their Reports to the Prince of Conti and Don Philip, the former gave it, as his Op- inion, that we ought to renounce all Hopes of pe- netrating into Italy by either of those Passages, for several Reasons; First, Because the natural Obstacles, which seem altogether insurmountable. Secondly, Because it has been, with the utmost Difficulty, that the Troops have been subsisted for six Weeks past; Thirdly, Because there is not the least Hopes of receiving the smallest Succour from the combined Armies. On the other Hand, the Infant Don Philip, the Marquis de Minas, who is his Tutor, urg'd by our late Success, is for pushing, imme- diately, in hopes of carrying those Passes, before the Time to fortify themselves effectually. Disputes have been carried to such a Height, occasion the suspending our Operations till the end of the Campaign, dispatched to their most Chris- tian Majesty; and, in particular, to learn the Intentions of our Court; upon which it will depend, whether we shall continue to pro- ceed in the War on this Side, or, after blowing up the Mines of Montalban and Villafranka, repass the Pyrenees, in order to open another Passage thro' Dauphiny. This is actually set out from the County of Cava in order to assemble 15 Battalions, and as many Troops, in the Valley of Barcelonetta; to be at the Passes of Fonestrelles and Der- and to join the Spaniards at Coni, who are to attempt on the Col de Tende. This Pro- ceeds to shew, that our Court approves rather of the Spanish General's Plan, than of that of the Prince of Conti. In the mean time, it is certain, that our Affairs are extremely harass'd, and in a miserable Situation. We have certain Intelligence, that Ad- miral Matthews has detach'd Eight Ships of the Line,

with all his Bomb Vessels and Fireships, in order to attack, or, at least, to insult, the City of Naples.

I R E L A N D.

Dublin, June 13. Yesterday being a great Spring Tide, a vast Army of Porpoises came up Lough Foyle, in pur- suit of Salmon. As they rolled by Londonderry, the Sailors pursued them in their Boats, and killing them all the Way, drew them six Miles farther up the Lough, to the Flats about Mount Gaveling. There a new Chase began by our Fishermen, and the Country People; who stretched a great Net across the Lough, and drove them up to the narrow Passages of the Great Island, which lies a Mile below this Town; there they fell on them with Guns, Swords, Hatchets, and all kinds of Wea- pons, and made a terrible Slaughter. There were kill'd here above 100, besides as many more mortally wound- ed, and carried off by the Flood. Including those the Men of Londonderry killed, there have at least fallen in this Battle 300 Porpoises, generally weighing from 1000, to 1500 Weight, and very good for Oil. Some of them were full of young Ones as big as Calves; and some had from Six to Ten Salmon in their Stomachs. But we hope, that since these grand Devourers are destroyed, our Fishing will hereafter flourish; and we are pretty well repaid by their Oil, for the Damage they have done.

Last Week Mr. John Boucher, who was concerned in carrying away Miss Ingoldby, of the County of Li- merick, and for the apprehending of whom a Reward was offered, was taken, and committed to Newgate.

Last Thursday a Cause was finally determined, in his Majesty's Court of Exchequer, between William Blood, Gent. one of the Attornies, Ann Adams, otherwise Blood, Administrators of Thomas Blood, a Lunatick, deceased, Plaintiffs; and Richard Evans, Defendant; concerning a Sale of some Land, sold by the said Thomas Blood, to the said Richard Evans; and after a full Hearing, which lasted the greatest part of six Days, and after several learned Arguments by the Counsel on both Sides, the Court unanimously pronounced a Decree, in the Plaintiffs Favour; and set aside the Sale made to the Defend- ant, with Costs.

Last Tuesday Morning died Mr. Walker, the Payer. He was the Person who first play'd the Part of Capt. Mack- hearth in the Beggar's Opera.

Last Sunday a Boy of about Seven Years old was cut for the Stone, in the charitable Infirmary, in the Jernail Way, by Mr. Dunsy; who extracted from him a large rough Stone, weighing nine Drachms, medical Weight. The Boy is like to do well.

This Week the Charter Working School, near Saintry, was opened. It is erected for 20 poor Popish Boys, sent from the distant Counties of the Kingdom; who are to be employ'd in the Trade of Flax-dressing; and brought up in the Protestant Religion. A Benefaction of 500. per Ann. from the Corporation of the City of Dublin, gave Rise to this Foundation; which his Grace, the late Lord Primate, generously improv'd, by a Donation of 400 l. towards the Buildings. The Honourable Board of Linen Manufacture have order'd a Salary of 25 l. a Year, to a Flax Dresser, to instruct the Boys in that Art; the Society have done the rest. The Right Hon. Luke Gardiner, Esq. gave an Acre of Land in Perpetuity, on which the School is erected; and ten Acres more are rented by the Society from the same Gentleman. Two Acres of the Ground are this Year under Flax, with a fit Portion of it set apart for the Kitchen Garden, &c.

Last Sunday died, at his Seat at Moniva, in the County of Galway, Counsellor Pat. Trench. He was a worthy Gentleman, and had been many Years Member for the Borough of Blessington.

On Friday died of the Gout, Christopher Hewetson of Thomastown, in the County of Kildenny, Esquire. He was a very active Gentleman against the Gang of Keilymount Raps, six of whom he took; who were ex- ecuted at Kilkenny and Carlow.

Yesterday, at the Court of King's Bench, Fifteen of the Billiard Tables, presented by the late Grand Jury of this City, (who had travel'd) were convicted there. The Citizens of this Metropolis are determin'd to pro- ceure, in the same manner, all Billiard Tables that may be erected for the future; or those which now remain, if kept open after the Hour of Nine at Night; or know- ingly suffer Merchants, or other Apprentices, or Clerks belonging to Gentlemen of any Business, to play in their Houses.

Commodore Anson is arriv'd at Spithead in the Cen- turion, from Canton in China; which Place he left the 4th of December. In his Passage he took an Aquapulca Ship off the Philipptan Islands, who had Thirteen Mil- lion of Dollars a-board; which he took out of her, and every Thing else valuable, and sold the Hull at Macow for 6000 Dollars.

The Hon. Van Kepple, Esq. Second Son to the Right Hon. the Earl of Albemarle, who has been the Voyage with the said Commodore, is arriv'd in the same Ship.

The Hillingfield and Harrington were well at Canton when the Centurion came away.

The Winchester, Stewart, the Lapwing, Watts, the Prince William, Langworth, the Prince of Wales, Polly, and the Egbafton, Cobham, were all at the Cape the 4th of April.

Two French Indiamen, Homeward-bound, were at the Cape; as was the Warwick, Milford; and another Ship, Name not mentioned.

M. Coigny having demanded, from the Subjects of the Elector of Trieres, a great Quantity of Provisions and Forrage, his Electoral Highness caus'd him to be in- formed, that he ought to pay for what he had last Year before he made any new Demands; that, when this was done, his Subjects should furnish him with what he wanted, for ready Money.

The Elector of Mentz has given an Answer to the same Purpose, but in rougher Terms; and the Elector of Cologne has actually declared, that, if any Attempts are made to carry off Forrage or Provisions, in the Man- ner that was done last Year, he shall be oblig'd to repel Force by Force, without farther Ceremony.

Private Letters from the Hague inform us, that the Prussian Minister has declar'd to the States General, by Order from his Master, that he has no Sort of Inten- tion to disturb their High Mightiness's Garrison; and therefore he hopes, they will not oppose his taking Possession of the Principality of East-Friesland; the eventual Investiture of which was granted to the King his Father.

A small Vessel from Yarmouth to Rotterdam, Richard Hornby, Master, of two Carriage, and four Swivel Guns, five Men and a Boy, was attack'd on the Coast of Hol- land by a French Privateer of 10 Guns, and 70 Men; they fought four Hours, and repuls'd the French in three several Attempts to board her; at last, a lucky Shot from the brave Yarmouth Man, set Fire to the Privateer's Powder Room, and blew her and her Crew into the Air.

Dr. ROBERT EATON'S BALSAMICK STYPTICK Truly prepared and sold at the Doctor's late House, now Mrs. DUTTON's, in Salisbury Fleet-street.

THIS Medicine restrains, in a surprising Manner, all internal as well as external Hemorrhages, i. e. it insensibly and quickly stops all rous Floodings at the Nose or Gums, spitting of Blood; also the immoderate Flux of the Hemorrhoids; fleshy bloody Urine or Stools, bleeding of a large Wound (if used according to the plain Directions given) will appear by the Certificates of several Eminent Physicians, and in the large Account of this Medicine, written by Doctor himself, and dedicated to the College of Physicians a little before his Death.
It keeps good for many Years, at Sea or on Land, in all Climates; therefore must be universally Useful.
The Doctor not only obtaining his Majesty's Letters for the sole Vending of this most Excellent Medicine, but also a Clause in a late Act of Parliament, exempting Medicine from the Inspection of the College of Physicians, to which all other Medicines are liable.
N. B. The late Learned Dr. CHEYNE, in his Piece, entitled *The Natural Method of curing the Diseases of the Body*, &c. prefers EATON'S STYPTICK to all other Stypticks; and speaks of it as follows:—
"I know the agglutinating Quality of sweet Blood, and I apprehend it is to this, that EATON'S styptic owes its mild, folding Efficacy.—It is more mild, folding, and soft, than the mildest Steel Preparation, and more to patch a Hole, or glew up a Rupture, or to give a stop to the acid and insupportable Flowing Blood of the Point, says, he is confirmed in this by a Physician of great Skill and Candor, who has great Opportunities of seeing such Cases, by his Practice in *Midwifery*. See 2. the

Concerning Gleets and Seminal Weakness of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weakness, whether it should be too severe purging for Venereal Injuries, Strains, Pollution sui, or any other Cause whatever, that they are dangerous in their Consequences, as well difficult to cure, as is certain, since they commonly weaken the Generative Faculties, infect the whole Nervous System, often bring on Heedick Heaps, a Tabes Dribilis, or Corruption of the Back, or an Atrophy or Nervous Catarrh, which frequently terminate in Death itself.
All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleet, Seminal Effusion, Urinary Emissions, excessive Nocturnal Pollution, or any Weakness of the Kidneys, Ureters, or Bladder, the Pain, Incontinency of Urine, or Difficulty of Holding their Urine, would doubtless be glad to meet with a certain, speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent Balsamick Extractive ELECTUARY, now published for a general use, after having for many Years been experienced, and found fail perfectly curing the most Stubborn Gleet in a few Days, without Difficulty or Trouble, in all other Weaknesses of the Back, Reins, Seminal Urinary Passages, which almost instantly cure, lead to rights and restoring all those Parts and Passages to natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.
This transcendent BALSAMICK RESTORATIVE ELECTUARY is neither disagreeable to take, nor occasions the least disorder, but is a wonderful Restorative in all Weaknesses of Constitution of any Kind, and particularly Strengthening the Back, Reins, Seminal and Urinary Vessels to an invincible degree, inasmuch that in any Debility of them, one Dose does more than ten of any other Remedy yet found, and all Persons fatigued with Gleet or Seminal Weakness, or Sort, or Weaknesses of the Urinary Vessels, who take it in three Days time find it so very effectual, that they are most agreeably surprised at it.
When a Medicine will infallibly accomplish such a speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy does directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in its praise. All who ever took it for any of the above-mentioned Disorders have readily declared—
The Price is but 6 s. 8 d. Pot, altho' for its absolute Effect one Pot alone being sufficient in most Cases to cure a Cure, worth ten times as much, and by the special Appointment, is to be had only at Mr. Keir's Toy-shop, at the Rose and Crown against St. Giles Church-yard in the Strand, ready sealed up, with plain Instructions, which whosoever carefully reads will fully know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malady the Foul Disease is entirely eradicated or not.
Note, Ask only for a 6 s. Pot of Balsamick Electuary.
